Letter of Recommendation

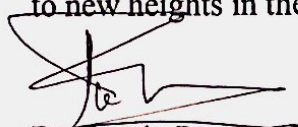

Name of the Recommender : Dr. Pravin Pawar
Qualification : M.Sc. , Ph.D
Designation : Asst. Professor (Physics)
- Coordinator, Dept. of Aviation

It gives me great pleasure to recommend Mr. Raj Panchal for his higher education. I have known Raj for the past three years and I was able to distinguish him from the other students. I have taught Raj Quantum Mechanics and Solid State Physics in his Undergraduate study. His performance in Electrodynamics has been exceptionally well followed by Mathematical and Statistical Physics. Having his majors in Physics, Raj had opted for Chemistry and Mathematics as Minors. I strongly do not think that his 'not so high' grades in Mathematics and Chemistry genuinely reflect his 'true caliber'.

To support this, it is worth to mention here with equal significance that his quest for knowledge has urged him to attend research conferences and seminars. Raj has presented a research paper on Obstacle Avoiding Robotic Vehicle in the International Conference on Smart Systems held in DY Patil University, Pune. His research work was also published in the International Journal of Advances in Science, Technology and Engineering.

Based on my close interactions with him, I have found Raj to be keenly interested in the areas of Astrophysics and Space Engineering. He wishes to pursue his higher education in the field of Astrophysics. Looking at his academic triumphs till date, I am sure that he will surely do an excellent job in the Master's Course and excel in his work.

I wish him all the best for his future endeavors and I am confident that he will rise to new heights in the field of his interest.

Dr. Pravin Pawar

Assistant Professor – Physics, Co-ordinator - Aviation
