

AVIATION COURSES ALIGNED WITH NSQF, NCVET OFFERED BY AESI & AASSC

The Aeronautical Society of India (AeSI), in collaboration with the Aerospace & Aviation Sector Skill Council (AASSC), is launching two premier certification courses, now open in Bangalore and Delhi, for professionals eager to advance their careers in aviation. Courses commence on 1st September 2025 for ATOM (Bangalore/Delhi) and 1st October 2025 for ANPA Bangalore.

OUR COURSES

1. Airline Network Planning Analyst (ANPA)

- Master the art of airline network planning and optimization.
- Gain insights into route development, scheduling, and demand forecasting.
- Become an expert in one of the most critical roles in the airline industry.

2. Airport Terminal Operations Manager (ATOM)

- Dive deep into the operational aspects of managing airport terminals.
- Hands-on experience with real-world scenarios.
